Design Hs-105

Size of sign depicted is 48" x 78"

Customer Information;

Please note that although these sign designs are standard, that they certainly can and often should be modified to any size or unique situations that you may have. Our goal is to make the sign buying experience as easy as possible, so these designs have been chosen to compliment most types of architecture. Also as a custom shop we not only welcome but, look forward to generating custom designs for your Church or School.

Materials used are of the highest quality for weatherability and longevity. All signs shown here can be done in a multitude of mediums and materials ranging from engraved text to individual letters and graphics, or just flat graphics on the sign surface. It is recommended that you speak with a sales associate to learn more about our unique products.

Design Hs-106

- Sign can be fabricated in double or single sided options
- Color choices are limitless for most signs
 - Signs depicting brick are made of real brick veneer
